**JSA YEAR IN REVIEW (JUL 2020 – JUN 2021) \*Updated semi-annually**

Despite the turbulence and changes to the business brought on by the COVID-19 pandemic, the JSA business and team continued to evolve and develop throughout 2020 and into 2021. Since the outset of the pandemic, we have been working closely with our customers to help identify solutions to meet their needs to weather the crisis, including deferrals, lease extensions and amendments of varying shapes and sizes. For those aircraft we did repossess or were returned early, the team focused on transitioning them to new customers. Although the aftershocks of the pandemic are still present, JSA has performed well during the last 12 months, with a record of twelve aircraft deliveries taking place during the month of June 2021 alone. JSA is steadily emerging from the pandemic in a cautious but strong position. With our solid shareholder behind us, we have affirmed our ongoing commitment to growing our portfolio and our team while focusing on supporting our customers with the financing and fleet solutions they need.
