FLEET COMPOSITION & PORTFOLIO METRICS (as of 31 December 2022)

JSA YEAR IN REVIEW (JAN 2022 – DEC 2022)

Over the past 12 months, JSA deployed nearly \$1 billion in next-generation fuel-efficient aircraft financing. The company remains dedicated to long term growth and continues to focus on helping our customer base navigate the volatility of the global aviation market with fast and reliable financing solutions. In 2022, JSA continued to reposition used aircraft to new customers, successfully committed a portion of the Boeing 737 MAX-8 orderbook to airlines in the Americas and Europe via long term leases and originated a strong pipeline of committed new acquisitions for the coming year. We have a long-term commitment to the assets and customers we invest in, primarily focusing on new technology aircraft, and pride ourselves on having one of the most fuel-efficient fleets in the aviation finance industry. In 2022, our sustainability committee completed our inaugural ESG strategy and report and we continued to enhance our DE&I work and a multitude of employee learning initiatives. We strongly believe in the importance of our growing global team sharing different perspectives and leveraging on one another’s strengths and look to 2023 and beyond with optimism.
